CAREER OBJECTIVE

Enthusiastic and motivated individual with hands-on experience in python developer, full-stack development, AI, and machine learning. Eager to contribute to impactful projects, grow through real-world challenges, and innovate in the dynamic field of software development.

EDUCATION

Master of Computer Application | GLS University

CGPA : 9.47 (Avg.) | (Aug '24 - Pursuing)

Bachelor of Computer Application | GLS University

CGPA : 8.80 | (Aug '21 - May '24)

H.S.C. (GSEB) | The H.B. Kapadia New High School

Percentage : 66.93% | (2021)

S.S.C. (GSEB) | The H.B. Kapadia New High School

Percentage : 65.50% | (2019)

PROFESSIONAL EXPERIENCE

SIH'25 Contributor, Smart India Hackathon

(Sep '25 - Oct '25)

- Contributed and participated in the Smart India Hackathon.

Web Development Intern, Proglan FutureTech

(June '23 - May '24)

- At Proglan, we deliver innovative, tech-driven solutions focused on client success.

PROJECTS

SchoolGuard | Self Learning Project

(Dec '25 - Pursuing)

- Developed a centralized school safety platform with role-based access, secure student registry, and real-time SMS emergency alerts, enabling government-level oversight across multiple institutions.

Vaultify – Secure Cloud Storage | Self Learning Project

(Nov '25 - Dec '25)

- Built a secure cloud storage platform inspired by Google Drive, featuring Google OAuth authentication, user-isolated file management, and drag-and-drop uploads.

QlickIn | SIH'2025 Project

(Oct '25)

- Developed a secure automated student attendance and analytics system using QR code and OTP verification with real-time validation to eliminate proxy attendance.

Expense Management | Odoo Hackathon

(Oct '25)

- Developed a role-based expense management platform featuring automated multi-level approval workflows, OCR-based receipt scanning, and multi-currency expense handling for efficient processing.

FoodZzz : Smart Food Ordering Platform | Self Learning Project

(May '25 - Aug '25)

- Created a food ordering app with Google login, categorized meals, cart system, payments, and recipe downloads, plus dashboards, order tracking, reservations, and admin controls.

StackIt – Minimal Q&A Forum | Odoo Hackathon

(July '25)

- Developed a minimalistic Q&A forum in 8 hours, enabling collaborative learning with role-based access, real-time notifications, and a voting system.

TECHNICAL SKILLS

- Programming Language** : Python, Java, C++
- Frontend Development** : HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Material UI, ShadCN
- Backend Development** : Django, Flask, ASP.NET Core (.NET), JWT, OAuth, Node.js, Express.js
- Database** : MySQL, PostgreSQL, MongoDB
- DevOps & Developer Tools** : Git & GitHub, Linux
- Core Subjects** : Data Structures & Algorithms, OOP, OS, ML & AI, Data Science, Blockchain

AREA OF INTEREST

- Python Development & Automation
- Full Stack Web Development
- Machine Learning & Applied AI
- Data Analysis & Intelligent Systems
